- | Low Tuition Cost

A Quick Glance...

All of our course offerings and special programs will assure you that you will be making "The right choice for your future by attending QBITTI."

Excellence...

A commitment to excellence has made QBITTI a recognized leader in High Tech training and career development. Our curriculum includes nationally acclaimed courses in the fastest growing industries in the country, and even the world.

Achievement...

QBITTI earned its reputation as the Training Institute by utilizing industry specific high tech training methods for more than 25 years. Since 1979, our school has successfully trained and placed more than 5,000 students into highly skilled and highly sought after careers.

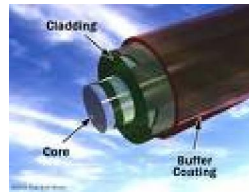

Course Synopsis:

The CFOT-301 (Certified Fiber Optic Technician) course is designed to provide experienced Telecommunications Technicians with the skills necessary to install, terminate, and most importantly splice, both single mode (SM) and multimode (MM) fiber optic cable. This short-term training program has been approved by the Fiber Optic Association , and is licensed by the New York State Education Department.

Students who graduate from this program will not only receive a state approved completion certificate, but also an internationally recognized certification.*

Topics Covered Include:

- Basics of Fiber Optics
- Fiber Optic Networks
- Fiber Optic Cables/Specs
- FOC Connectors and Splices (Mechanical)
- FOC Fusion Splicing
- OTDR Use and Testing
- Link Loss Budgets
- FOC Stripping, Cleaving and Polishing
- FOC Installation Procedures

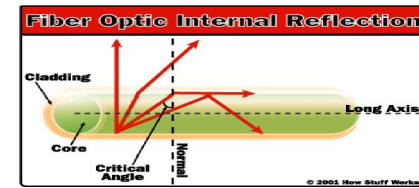

Course Scheduling:

The course is 40 hours in duration, and is made up of both theory and laboratory training. Particular emphasis is placed on fusion splicing. QBITTI currently uses both Fujikura and Sumitomo fusion splicers. Students will strip, cleave and splice both Single and Ribbon FOC and measure their work according to industry standards and tolerances. Classes meet weeknights from Mon-Thursday, from 6:00pm to 10:00pm, for 2 weeks.

Or on weekends from.
From 8:00am to 4:00pm,
For 5 consecutive
Weekend days.

Please check our website at:
www.QBITTI.com
for specific class dates.

Am I Eligible?
